This is a competition, a certain number of obstacles are set up in the arena. Each obstacle carries points from 10 to 120 according to its difficulty. (combination obstacles are not allowed) The obstacles must be built so that they can be jumped in both directions.

The athlete is credited with the number of points carried by each obstacle that the Athlete jumps correctly, No point are awarded for an obstacle that is knocked down. A fixed time of 45 Seconds (Minimum) to 90 Seconds (Maximum) is allocated in this competition. During this time, the athlete may jump any of the obstacles he/she wishes in any order and in any direction. During the Athlete's round, the Athlete is permitted to cross the starting and finishing lines in either direction, as often as he/she wishes. The bell is rung to declare the end of the fixed time which points may be obtained. The Athlete must then cross the finishing line in one direction or the other in order for the time to be recorded; if the Athlete does not cross the finish line he/she is eliminated.

Each obstacle may be jumped twice. The act, voluntarily or not, of jumping an obstacle for the third time or of passing between the flags of an obstacle already knocked down does not incur Elimination. However, the Athlete does not score points allotted to this obstacle.

The Athlete who has obtained the highest number of points will be declared the winner. In the event of equality of points, the fastest time taken between the start of the fixed time and the crossing of the finishing line after the bell will decide.

JOKER - An obstacle may be provided as part of the course, duly **marked by flags** and titled "Joker". The joker may be jumped twice 200 points are awarded each time this obstacle is jumped correctly; but if it is knocked, 200 points must be deducted from the total points obtained.
